

GigE Vision® Accessories

Software CD-ROM

Software CD-ROM for Sentech's GigE camera included with the product for free. Materials including software, drivers and installers have been combined into a single package. Please let our sales department know if you do not require a CD-ROM, such as when purchasing multiple units or for repeat orders.

Name	Supported Models	Category
StGigE-Package	All GigE Camera models	Drivers/Software/SDK/Documents

AC ADAPTER

This is an AC adapter (optional) to power the camera. Required for GigE standard model and PoE model if PoE is not in use. The adapter supports multiple voltages (100 - 240VAC) and is CE and RoHS compliant.
